

Hi All! As many of you know the Town of Brooklin suffered a partial power outage this am. Being on three phases, power to our school was reduced, but not eliminated. This was the first time we had seen this kind of outage in my time here and gave us some different needs to work through.

Even though we lost heat and water, we had most of our lights, Internet, phones etc. With those opportunities still available to us, we were able to work through the power outage with lunch able to be completed and served. Based on speaking with EMERA (in regards to when they felt power would be restored), I decided we could make it and did not decide to send students home. Fortunately, this worked-out to be the right decision as power then came back on about 90 minutes after it was lost.

Please know that your sons and daughters moved forward with their day well, in spite of this difficulty and that our staff did not miss a beat!

My best,

Christian M. Elkington
Superintendent School Union 76
